

Your *eco-living* store

We make green living easy, without sacrificing style.

Sustain is your solution for whole-home green living and building products.

Choose from our full array of zero VOC, non-toxic paints or plasters, custom furniture design, bedding or home decor. We help you create customized, comfortable, stylish spaces that are healthy for you and the environment.

We're here to help you see that green can be easy, convenient and affordable. Our growing line of green living products help guide you, every day.

While renovating our 50's bungalow, we came to realize that there were no options for green building in our area. In fact, when we started digging we found that building and living green was hard to do. So we decided to change that.

Knowing that there are other passionate people just like us who make great products, we sourced them out and Sustain was born. The result is easy, affordable, stylish green living, all under one roof. Through education and advocacy, we're hoping we can help change the way we live in Muskoka and beyond. We provide all the tools you need to make the best possible decision for you and the planet.

Part of what we do, each and every day, is research. We ask all the tough questions so you can be sure you're investing in a truly green product. No green washing here. The result is a comprehensive line-up of brands that exceed both your expectations and the green standard. Looking for something we don't have? No problem, if it's out there, we'll find it for you!
